After again going through their stock and pricing many articles, he picked out two handsome pieces, paid for them and gave his name and address. Addressing the salesman, he said: "I looked through your furniture a week ago, and have since then been through ramy stores in the city twice over. I now wish to say that yours of them all '- the only store where I found the prices to be the very same on my second visit as on my first one; every one of the others had either a higher price or a lower one on my second visit; in fact, none of them seemed to be sure of the price to ask!! None of them had such an elegant stock of beautiful goods as I see here, and every last one of them asked 25 to 50 per cent more for plain stuff, not by any means so artistic as yours!! I must say that CRAWFOED'S one-price system to all has gained my entire confidence!!"

Samples of river water collected by Commissioners at the East St. Louis intake exhibit the same unpleasant properties, both in regard to color and consistency of foreign substances, as the water taken in at the Chain of Rocks. This leaves the inference that the high-water current has created a general disturbance in the Mississippi River.
The Committee on Water Department has dismissed further consideration of the Meramec proposition, and that plan will not be again considered. For this reason the water will be settled, by an improved method, in order to make it more agreeable for potable purposes, and meanwhile filtration operations in other cities will be closely watched.

This action will open 1,000,000 acres to homesteaders under the usual provisions of the Federal laws, excepting that the lands within a radius of five miles of Pocatelio must be sold at public auction to the highest bidder, for not less than \$10 per acre. The lands have been surveyed by the Government and placed in three classes, namely (i) agricultural. (2) grazing and (5) lands within the five-mile radius of Pocatello, stated above. The agricultural lands are embraced in townships 5, 6 and 9 south, range 35 cast; townships 6, 8 and 9 south, range 35 cast; townships 6, 8 and 9 south, range 35 cast; townships 6, 8 and 9 south, range 38 east.

The lands are rated as fairly desirable and the opening of this reservation is expected to add greatly to the population and commerce of Idaho. Much less interest is felt in the opening, however, than has attended similar events in Okiahoma and other regions of the Southwest. The lands of the Idaho reservation are considered less desirable for general agriculture and the price restrictions aem Pocatello are somewhat prohibitive to the average homestcoder.

Colonel Lynch was arraigned at the Bow Street Police Court on the charge of high treason and was remanded until Saturday. June 14, after formal evidence of his arrest had been presented.

The prisoner, who was described on the charge sheet as a "journalist," sat in the dock apparently unconcerned until the Magistrate asked him if he had anything to say in reply to the charge. "He is not a burgher."

John Redmond, the Irish leader and P. J. G. Swift-McNeal (Nationalist) then turned to the Secretary of State for Home turned to the Secretary of State for Home Affairs and asked him why he had not fulfilled his ministerial duty in informing the House of Colonel Lynch's arrest on the charge of high treason.

Mr. Ritchie denied that it was his duty to inform the House, but when the Irish members appealed to the Speaker the latter upheld the Nationalist contention that the usual practice was to inform the House of Commons of such an incident through the Speaker.

Lieutenant Colonel John Philip Nolan (Nationalist) applied this afternoon for the release of Colonel Lynch on bail, but the Magistrate said he had no power to grant the request.

IN BUTLER CASES.

Whether They Shall Come Up Monday or Next Fall.

A technicality has arisen which may preent the trial of Colonel Edward Butler at Columbia before next fall. Judge Ryan will endeavor to untangle the matter to-day. It has been pointed out that the statute overing changes of venue provide that when a case is transferred it shall be set on the docket of the court to which it is sent at the next term following the transfer. Court was in session for the June term at Columbia when Judge Ryan last Monday sent the case there for trial. The change of venue, however, was granted on Saturday before the June term of court at Columbia convened.

Circuit Attorney Folk maintains that the change of venue and the transfer of the case is all one act. The change was granted on Saturday, and in effect Mr. Folk claims that on that day the transfer from St. Louis was made.

on Saturday, and in effect Mr. Folk claims that on that day the transfer from St. Louis was made.

In making out Colonel Butler's bonds Clerk Edward Chamberlain set the October term of court at Columbia as the time for Butler's appearance, he taking it for granted that it would go to the term of court following that which was in session when the bond was made out. This is a mere technicality, however, which has little bearing on the case, for Mr. Butler can be ordered to appear at any time.

In the event Judge Ryan holds that the cases cannot be set for this term of court at Columbia, a special term will be called this summer. Mr. Folk says the law does not specify a case must be set at the next regular term of court. If Judge Ryan holds that the case may be set this term, the transcript will be forwarded to Columbia at once, and it is expected that the case will be on the docket Monday.

It matters not what the ruling of the court may be. Mr. Folk will go to Columbia either this week or the early part of next to make arrangements for the trial. Mr. Folk will employ special counsel at Columbia to assist him in the prosecution. He will also have the help of one of his own assistants and Jerre H. Murphy, Prosecuting Attorney of Boone County.

Senator B. M. Anderson of Columbia was in St. Louis yesterday and talked with Mr. Folk about the case. He sald that the people of Columbia would give Mr. Butler a fair trial. The case has already excited

Col. Blackwell to Retire From Mining Business in Territory.

REPUBLIC SPECIAL.

Wichita, Kas., June ii.—Colonel A. J. Blackwell, the Indian milliomaire land owner, arrived here to-day from New York, where he has just concluded terms with the Coal Trust.

Colonel Blackwell says he has leased 2,000 acres of his coal lands in the Cherokee Nation, for which he received \$250,000 and 3 per cent on all coal taken out. He says he is not at liberty to give out any details of the trade, as the officials in New York forbade it. He says he will have nothing more to do with coal mining in Indian Territory, as the terms of his sale forbid it. There is some doubt expressed as to Blackwell's power to sell his coal lands in the Cherokee Nation, as he has no warranty deed as yet. However, he controls over 12,000 acres of Indian land around Chelsea on the Frisco road. This land was secured through his children and Indian wife. He is white, but calls himself an Indian. He says he will spend nart of the quarter million dollars in assisting the striking coal miners in Pennsylvania.

The plan of merging the leading restaurants was originated by Mr. Koehler, and its consummation is due to his efforts. The merger has been practically agreed upon, and only requires the signatures of the in-

HEARING FOR BUTLER CONTEST.

House Expected to Take Up St. Louis Election Case June 25.

Washington, June 11 .- The Democratic the Butler contest to come up for discussion in the House on Wednesday, June 25. Mr. Butler is out of the city, and if he does not return in time, the case may be postponed beyond the time named.

The reports that Butler may make a deal to secure a postponement of the vote in his case until the next session of Congress, have stirred up considerable irritation among the Republican leaders of the House, and if a postponement is asked beyond the time set there may be a vigorous protest from certain quarters.

If the case comes up at the time named, speeches in behalf of Butler's retention probably will be made by Bowle of Alabama, Fox of Mississippl, Burgess of Texas and Butler. One or two Missouri Democrats may be drawn into the debate if the State's election laws are assailed, but the principal speeches for that side are expected from the Democrats of the Elections Committee.

Chairman Tayler of Ohio will make the the Butler contest to come up for discus-

The debate on the case probably will last two days, a vete being taken just before adjournment the evening of June 26. Un-

less postponement is secured it seems probable now that at that time the House will formally declare that a new election must be had, in the Twelfth Digirict. The proceedings are expected to be largely perfunctory. With the large Republican majority in the House there is not a shadow of doubt that the Elections Committee will be sustained. The only hope Butler could have for being retained longer would be failure to bring the case to a vote. There has been some suggestion of the matter resting, but it seems now that action will be asked for June 25 or 26.
